

## **PRESS RELEASE**

The National President of ERYC informs all members and sympathizers that our organization will hold on August 16, 2024 a day dedicated to the moral rearmament of young people, the importance of civil society organizations and volunteering, as well as job search techniques and professional social integration.

The aim is to raise young people's awareness of the need to get actively involved in civil society and to develop their professional skills for successful integration into the world of work.

We also invite you to take part in our Ordinary General Meeting on August 17, 2024. This meeting will enable us to take stock of our actions and define the future direction of our movement. For those of you who would like to get involved in the commissions or take part in the workshops as a panellist, please contact my office for practical details (themes, presentation materials, speaking times, choice of workshop).

Your presence and involvement at these crucial events for our young people are essential. Together, we can build a better future for Cameroon.
